

A29-00586.

7/31/01 3:30pm Sandy Egbert.

Glenn Harper was listed as an original owner.

William / Roberta Shore - original owner

Current Owner: Marie Jonsson

Jon Jonsson

Listed in the Bancroft Lund decree, why is bases statutory claim?

The different Bancroft Lund decree lists the irrigation as 0.08 cfs. they claimed 0.8 cfs

- Why is this claim listed with the Basis of claim:

STATUTORY CLAIM? $40 \text{ acres} * 0.02 \text{ cfs} = 0.8 \text{ cfs}$?
decree lists 40 acres, but only 0.08 cfs.

8/2/01 4:35pm Danni Smith called and said the blue covered Director's Report for the Bancroft-Lund Decree is the final decree. - Will verify with decree in the vault.
- will need to check receipt to find out what was paid for on the irrigation portion of this right.

Int. N. of grave - old Hwy Bancroft.
1st Rd. ~~Ex~~. Crossing the RR. going North.
End of asphalt (3 1/2 - 4 mi) on Irvine Rd.

8/16/01 4:40pm Candice will get back to me with
an answer on this claim, and Selent farms.

8/30/01- Candice emailed me and her apt. with
Susan has been postponed until 9/7/01
to discuss Bancroft-Lund.

8/31/01 Jon Jonsson called and was wondering what
the outcome of Eric's my visit was about
the spring. He's going to get in touch
with his attorney David Rasmason.

his property. He wanted to know the likelihood of it being approved, I said I had no idea it would be up to the Department.

Cindy

More on Jon:

Ernie, remember when you were here and we talked about a water right for Farmers Land and Irrigation Co. I still have not found a water right for them. When Jon came in I asked him if there was another name and he said no. I checked with Mark Larsen and he has never done a shape for them, and we checked on the states website for the business and it was forfeited in Dec 1986? I've checked with the last contact person for the Farmers Land and Irrigation company to find out what water rights they have? Hopefully, it will be under another name.

Also the Bancroft-Lund Decree decreed Jon Jonsson's water right (29-586) at 0.08 and not 0.80 (40 acres)? Should it be recommended as decreed?

Vicky looked for more files (a long time ago but I'm just now following up) and was not able to find any more files concerning this matter. Thus, I will leave it up to Cindy and Ernie to determine whether they are convinced it was in fact a typo. If so, recommend the correct amount. Thanks

Candice

Vicky,

Can you see if you can find a claim for this water right claimed in the Bancroft Lund (I'm not sure we still have the claims for that adjudication but if we do I would like to see it). Water right 29-586 (could have originally been claimed from Basin 13) so check 13-586 too. If there is a claim file with field exam notes I would also like to see them. Thank you.

Candice

Candice, I have look for information concerning this number in our regional files and found nothing. I suggest you ask Vicky to check the vault for a folder on this right. It may be filed with the other Bancroft Lund claims.

Ernie

Regarding whether we recommend .80 or .08 depends on whether we can verify that it is in fact a typo. I need to see the claim if we can find it, any field exam notes we made etc. to determine that it was a typo. If you have these documents, please send them my direction. Otherwise, I will have Vicky investigate. Thanks

Hi guys,

Jon came in my office yesterday to bring in evidence on his expansion claim in the B-L area. During his visit he inquired about bottling his spring water and selling it. I just shook my head and told him if he wanted to do that he would have to file a transfer in Idaho Falls to change the Purpose of Use for the water right and dry up acres. He insisted that he didn't need to dry up any acres because he has enough canal shares to cover
