Water Right Number: 75-4397, Page 496

RECEIVED
DEC 09 2005
DEPARTMENT OF
WATER RESOURCES

Enclosed is the following:

*Affidavit attesting to first party observed use of irrigation on our place

We are currently working on the following:

*Placer claim records which may show when our ditch was first put to beneficial use.

The belief is that our ditch predates the homestead. These records are listed by claimant and require a search of the entire set of courthouse records to find a location.

Current addresses of the owners are listed below:

Mary E Anderson
3004 Salmon River Road
Shoup, ID 83469

Edward Charles Anderson, JR
2614 Bluebird Lane
Idaho Falls, Idaho 83402

Edward Charles Anderson
3004 Salmon River Road

Paula A Anderson
2614 Bluebird Lane
Idaho Falls, Idaho 83402

To Ed Anderson

My name is Robert Elison, I am 75 years old, I reside at 524 Stansbury, Pocatello, Idaho.

In 1936 my family purchased the Bill Wallace ranch on Panther Creek.

In 1942 my mother married Ray Mahoney and we moved to Owl Creek on the Salmon River. We lived there thru 1954.

The property was irrigated with water from Owl Creek including the property now owned by Ed Anderson.

Before we moved to Owl Creek we would visit and purchase fruit from Ray Mahoney and I observed that the property was irrigated with water from Owl Creek.

It is my ~~own~~ opinion that the ~~the~~ property was irrigated with Owl Creek water starting at the time the ditch, that diverts water from Owl Creek, was dug by the Placer Miners in the 1890's.

Robert Elison

On this Eighteenth day of November, 1966, Robert Elison personally appeared before me, Dennis J. Tarter, a notary for the State of Idaho.
