

CONVERSATIONAL MEMORANDUM

Date: October 1, 2002

From: Craig L. Saxton

Subject: 29-00615F

I called Kevin Hall at 2:45 pm concerning SRBA claim 29-00615F. The purpose of the call was to inform Mr. Hall that during a field exam on 9/24/02 I did not see any signs that Portneuf river water could be put to beneficial use or had been for some time. I told Mr. Hall that in order for me to make a positive recommendation to the court, he needed to provide me with evidence of the last time water was put to beneficial use.

Mr. Hall said he purchased the property in 1984 and had never put Portneuf River water to beneficial use. I asked him if the previous owners were irrigating from the river when he moved there and he said they were not.

Mr. Hall said that his portion of the property used to be part of the gravel pit, and even though there is a header from the 4 inch buried line on the corner of his property, water hadn't been used. He thought that when they put in the line they just put headers on all the properties.

I confirmed that the mailing address was correct and informed Mr. Hall that with this information I could not make a favorable recommendation to the SRBA court. He would have a chance to object if he obtained different information.

Send withdraw form. If not withdrawn, recommend as disallowed due to forfeiture from 1984 to 2002.
