1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity of useable water and total acres involved
and possibly location of ground watered

2. Describe the changes you wish to make in the proposed recommendation:

Please refer to original water right, copy enclosed.

3. Give a brief explanation as to why you disagree with these portions:

This water right along with water right 21-153 are for irrigating
grazing ground next to swamp that Lost Creek flows into and out of.
We would like to keep both of these original water rights and the desire
was to get them under the current name of the ranch. Thank-you for
your help

I AGREE with this proposed recommendation: no changes need to be made.

These water rights have meant so much in
the past and will mean a lot in the future to
this small ranch. Please allow us to keep them
intact. Thank-you.
