

**AFFIDAVIT OF JOHNNY L. GOFF  
IN REFERENCE TO GROUND WATER  
CLAIM NUMBER 67-4310**

**STATE OF IDAHO                    )**  
                                              **:ss**  
**County of Washington         )**

I, **JOHNNY L. GOFF** having been first duly sworn deposes and says:

1.       I was born October 20, 1951 in Redding, California, and shortly thereafter my folks moved to Payette, Idaho where I lived until I left my home.

2.       When I was a teenager, I was close friends with Dave Harter whose father owned what is now known as the Weiser Hot Springs.

3.       I am attaching to this Affidavit an Affidavit filed by Glenn E. Campbell dated March 12, 1980. I have review that Affidavit, and have been familiar with the Hot Springs over the years and know of my own personal knowledge that the county records reflect the ownership and use of the Hot Springs as reflected in Mr. Glen Campbell's Affidavit.

4.       I therefore incorporate by reference, Mr. Campbell's Affidavit, reflecting to the best of my knowledge the historical use of the Hot Springs water that arises on the property that I now own.

5.       I first came to the Hot Springs property with my friend Dave Harter to assisted him in and his father in the operation in a limited role. I did observe, however, that the hot water was used in the swimming pool, for irrigation purposes, for greenhouse purposes, and used to raise fish in the catch pond where the hot water drains into.

6.       As early as 1977, I worked for Geo Solar Growers and drilled wells on the Weiser Hot Springs property. While drilling the wells, I observed that the Hot Springs well water was being used for the same purposes as I observed when I went out on the property with my friend Dave Harter.

7.       In 1984, I purchased Dallas Drilling, which was a well drilling rig and operation. In that same year I drilled additional wells at the Weiser Hot Springs property for Trails End Resorts who at that time owned the Hot Springs.

8.       In early 1984, while I operated the Hot Springs property I was also involved in an extensive litigation relating to the Hot Springs, during which I then purchased the Hot Springs property.

9. Since 1984, all the Hot Springs water that arises on my land, which is appurtenant to the Hot Springs water claim numbers 67-4310 and have used the water on the property for the same purposes used by Mr. Harter, which include the following:

a) I use approximately 1.2 CFS for irrigation purposes of approximately 10 acre from the early spring from approximately March 15 through November 15 of each year;

b) I would estimate my use for the livestock consisting of horses, cattle, pigs, geese, and chicks to be approximately .02 CFS water used.

c) We used the hot water to fill the swimming pool, the bathhouses, the hot tubs, and to heat all the buildings on the property, with the excess water running into the ponds where I have raised approximately 40 different varieties of fish over the years; and

d) There are some living quarters for tenants approximately 11 units, 12 RV hookups and a domestic homestead, which have been on the property long before I became the owner of the same.

10. From 1984 to present I have used all the hot water on the property for the above purposes on a continuous uninterrupted and regular basis. The total use for the above purposes is somewhere in the neighborhood of 3.66 CFS, which I continue to use today and will continue to use in the future.

11. Each time I visited the Hot Springs since 1968 as a teenager to present, while with some variations, the Hot Spring water use has continued over those years approximately in the same manner and in the same type of use.

12. To the best of my knowledge, understanding and recollection the above is true and correct relating to the water rights on my property.

DATED this the 13<sup>th</sup> day of December 2005.

  
Johnny L. Goff

## DEPARTMENT OF WATER RESOURCES

## STATE OF IDAHO

In The Matter Of ) Case No.  
Weiser Hot Springs, )  
Claim to Water Rights ) AFFIDAVIT

Glen E. Campbell, who after being sworn, and now upon his oath, testifies to the following facts and conditions:

1. That he is Glen E. Campbell residing at 555 West Main, Weiser, Idaho; and
2. That he was born on July 11, 1925 in Weiser, Idaho, and has lived in and around Weiser, Idaho continuously since the date of his birth; and
3. That real property generally described as SW $\frac{1}{4}$  of Sec 10, T11N, R6W, B.M., approximately 160 acres, and including what is now known as Weiser Hot Springs, was purchased by the Campbell Land & Livestock Co., October 20, 1917; and
4. That his father, James W. Campbell was then the owner and proprietor of said company; and
5. That the same property was sold by said company to James W. Campbell as his separate property on January 1, 1920; and
6. That ownership of said property remained with the parents of the affiant, James W. Campbell and Lena O. Campbell until sold by the latter as her sole and separate property to W. T. Branstetter on November 10, 1947; and
7. That Campbell Hot Springs, now known as Weiser Hot Springs was built in 1917 and then offered commercial and or recreational uses of a swimming pool, hot water baths, camp sites, temporary residence facilities, and a dance hall; and
8. That the pool, baths, and dance hall were each heated by natural hot water found on or under said property and that the camp sites and temporary residence facilities used the same hot water for domestic purposes; and

UNCLASSIFIED

9. That Campbell Hot Springs burned in 1924 but was rebuilt shortly thereafter with the same commercial/recreational uses continued through 1948; and
10. That the natural hot water was used periodically for agricultural purposes as the heat source for an incubator (1924-37), to scald hogs (1940's), and continuously from 1917 through 1948 to water stock, both sheep and cattle; and
11. That upon information supplied directly from James W. Campbell and Lena O. Campbell, and upon personal observation and knowledge, the affiant states that natural hot water found on or under said property has been used continuously from 1917 to the present for commercial/recreational use and repeatedly during that same period for agricultural purposes.
