RE: Reply to Notice of Error

Dear Audrey,

We have received your reply to the Notices of Error for water rights 27-4F, 27-16A, and 27-37C. Enclosed is a copy of the new Preliminary Director's Reports (PDR) for each of the rights. After reviewing your remarks, we have made the following changes, which you requested:

- The Blackfoot Irrigation Co. has been removed from the remarks in all three rights. We recognize that you do not have water with their company.
- The total diversion rate for the combined rights of 27-4F, 27-16A, and 27-37C was increased from 0.75 c.f.s. to 0.97 c.f.s. to reflect the highest diversion rate of 0.97 c.f.s. for the right 27-37C.
- Place of use for the right 27-16A has been changed to the same property as is irrigated with rights 27-4F and 27-37C, which is a total of 18.9 acres. However, because of the specific limitations placed on each decreed right, some remarks have been added of which you should take note on the PDR for 27-16A. But the combined diversion rate and combined total acres is consistent on all three rights.

Please take the time to review these reports and return the Notice of Error Reply to the Department informing us of any changes you wish to make or of your agreement with the proposed recommendation.

Respectfully,

Kristin Moore
