Re: Snake River Basin Adjudication (SRBA)
Claim 27-23B

Subject: Changes to water right.

Response Date: 14 June 2004

Dear Claimant (s):

IDWR's initial investigation of the Notice of Claim listed above indicates that there has been a change in the point of diversion (POD) and place of use (POU) as described below:

Previous POD: SWNE, section 15, T3S, R39E.

Claimed POD: NWNE, section 22, T3S, R39E.

Previous POU: SWNE, SWSE, section 15, T3S, R39E.

Claimed POU: NENE, NENW and SENE, section 22, T3S, R39E.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

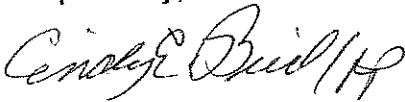

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

It's our goal to recommend historical water rights within the Snake River Basin Adjudication as accurately as possible. This office must receive your response by the date shown above. If no response is received, then your claim to water from the new source, point of diversion and place of use **will not be recommended to the SRBA court.**

I have also enclosed a copy of a Change in Address of Notice of Claim form that needs to be signed and returned to this office.

If you have any questions, please feel free to contact me at the office in Soda Springs at 547-3993.

Respectfully,
