

NOTES

11-15-05

Claimed as licensed. Note in file suggests that an enlargement may be needed. But the field exam suggests otherwise. The claimant does not claim any portion of land that is not covered by this license or any SPBA right 22-7543. I found no need for an enlargement. If claimant decides later that he really does need more ground than he showed in the exam, then he can enlarge later. Recommended as licensed.
