FYI

Jeff has prepared an Order Correcting Transfer Approval to address this matter. When it has been signed, I will notify AJ to update their records to match. No new approval document will be issued.

Jeff,

This does appear to be an error on the approval document. Review records show 70 acres total between the rights & 35 acre limit on 27-37D only. What do you suggest?

Pam

Cindy after looking at the file here at Eastern I believe the second remark should say the combined use is 70 acres. The 70 acres is consistent with the acreage listed in the POU and documentation included with the transfer application. Since the transfer was approved in 1998 it may require correcting by Allocations in order to up the acreage limit.

Pam please check your records to determine the combined use remark should state 70 acres.
Candice will the transfer have to be corrected in order for the claim recommendations to reflect 70 acres instead of the 35 stated in remarks?

Subject: Franklin Wright T5027

good afternoon,

In reviewing 27-27C for Franklin Wright I notice one of the remarks on the above listed transfer that appears to wrong. Or maybe I'm interpreting it incorrectly. The transfer was approved for 70 acres with the following remarks.

What the remarks says: Right 27-37D is limited to the irrigation of 35.0 acres within the place of use described above in a single irrigation season.

Rights 27-23F, 27-27D and 27-37D when combined shall not exceed a total diversion rate of 2.04 cfs, a total annual maximum diversion volume of 280.0 af at the field headgate, and the irrigation of 35 acres.

This last remark makes it sound like when the 3 rights are combined they can only irrigate a total of 35 acres? Would you interpret it that way? Or does the first remark clarify that it is only 27-37D that is limited to the 35 acres and the rights combined have diversion limits?

thanks,
Cindy
