Field exam shows there are 3 pts of diversion to irrigate this claim. The 3 main ones are the Killpack Ditch that diverts in Wyoming is used to irrigate the lands north of South Lugh Creek and the other 2 are on the south side of S.L. creek. There is also some waste water from other diversions above or east of this property that helps w/ irrigation. The third diversion is more like a branch of S.L. creek that runs through some low ground in S1/2 NE4. There are no ditches off this branch but it subs the ground along its course.

 DO
 Field exam showed 2 main diversions and
 ditches and dams are used to irrigate this
 ground. One diversion is used for the
 south side and one is for the north
 side of South Leigh Creek.
 Acreage claimed seems pretty close
