

An aerial photograph of a landscape, possibly a wetland or agricultural area, with a yellow polygon overlaid. The polygon is divided into four quadrants by a horizontal and vertical line. The quadrants are labeled with directions: SENW (top-left), SWNE (top-right), NESW (bottom-left), and NWSE (bottom-right). Numerical values are placed in each quadrant: 0.4 in the top-left, 37.1 in the top-right, 12.1 in the bottom-left, and 17.2 in the bottom-right. A blue line with a wavy pattern runs diagonally across the top half of the image, and a yellow line runs diagonally across the bottom half. The background is a mix of red, brown, and blue tones, suggesting different land cover types.
