DEPARTMENT OF
WATER RESOURCES

Leadore, Idaho

To Whom It May Concern:

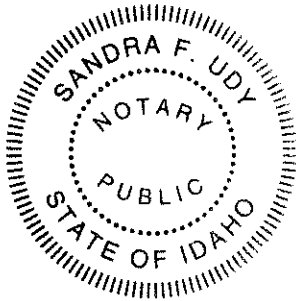

I started working for Jim Fuqua the summer of 1981, and irrigated the 18-Mile properties the summers of 1983, 1984 and 1985.

During that time I used the following water right numbers where I felt they would be the most beneficial: 74-2006, 74-2091A, 74-2091B, 74-2124, 74-1772 and 74-1771.

I would start in the top field and divert it in the two ditches. Then, as I went through I would use my wastewater in the other places through the fields until I was to the end of all the fields. I could also use my wastewater at the bottom of the Rusk field; at the same time, I was using the water at the top of the Camel fields.

Leadore Idaho

To whom It May Concern

When I WORKED For MAHAFFEY Livestock In 1971 AND 1972. I IRRIGATED The 18-mile Properties. I used The water where IT was most Beneficial. STARTING AT The Top and work Down Through The Rest OF The Field.

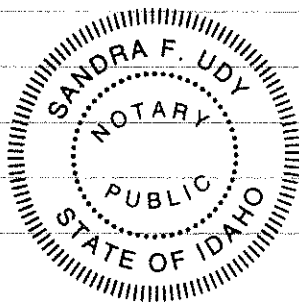

I Started Work For James Whittaker in 1986 doing The Same. Picking up waste water and using IT Again.

Water Right Nos. 74-2006, 74-2091A, 74-2091B, 74-2124, 74-1772, 74-1771.

I Could Divert The water at The UPPERmost Part OF The Field, which is The NE, NE and also NW N. of section 35 of T14N, R.27E. AnyTime I Want.

Signed.
