Re: Subcase Nos. 29-2261 and 29-7402

Dear Mr. and Mrs. Avery:

This letter is to follow up on my conversation with Mrs. Avery today and the hearing held last week regarding your water rights referenced above.

Enclosed is an amended Notice of Claim for your water right no. 29-2261. Please fill out the form and file it with IDWR Eastern Region in Idaho Falls. The Eastern office address is 900 N. Skyline, Ste. A, Idaho Falls, Idaho, 83402. The telephone number is (208) 525-7161

The process for changing the point of diversion for your water right 29-7402 is different because it is purely a domestic and stockwater right and does not include irrigation or another purpose of use. As such, your objection to the point of diversion can be resolved in one step, with a document called an SF5.

After you file the amended Notice of Claim for 29-2261 with IDWR Eastern Region, technical staff there will make the changes to both of your water rights and forward the changes to the state office. We will prepare the SF5s for both of the subcases and forward them to the BLM and to you for your signatures.

Please call me if you have questions regarding this process at (208) 327-7928.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Vicky L. Music".
