

MEMORANDUM

To: 29-2255E, 29-2255F

Fr: Bryce Contor

Date: 9/18/01

Re: Split of Original License

It appears from the microfiche documents in paper file 29-2255D and the WR proof reports that 29-2255 was originally issued in two parts, 1.12 cfs on 56 acres in 1941 (priority 1939) and 0.44 cfs on 78 acres (which appears to include the original 56, see Mark Kulp letter 12/19/1950) in 1950, priority 1949. The Freeway split the bottom of the original farm, south of the freeway has now been acquired by Astaris & part of it transferred to a new POU & use. This is 29-2255C & 29-2255E,

29-2255D and 29-2255F appear to be the part on the north of the freeway. These are claimed on a POU basis, consistent w/ WR Proof reports (copy in files). Diversion rates & acres appear to add up. Recommend as claimed if GIS supports claimed acres.
