Boise, Idaho

January 10, 2006

Dear Matt Anders:

In November or December of 2005 I got a call from you letting me know I was in danger of losing my water right (number 37-12819.) I was to submit proof substantiating this water right or lose it. Earlier in the year of 2005, I had received a letter from the Twin Falls office of the Dept. of Water Resources informing me that I needed to provide proof of water rights. I personally took 3 letters to the Twin Falls office: one letter from me, one letter from my mother (a former resident of the property) and one letter from a former next-door neighbor. I took these letters to the Twin Falls office because that was the return address on the letter I received. I took them personally to ensure that they were received in the office without problem or incident. At the Twin Falls office I spoke with a receptionist and a gentleman (whose name I don't remember) who said I'd done all I needed to do. After I received your phone call, I contacted the Twin Falls Office and asked if they still had those letters in their possession. They told me that they send everything they receive on to Boise. Obviously, you did not receive them, and then you advised me to repeat the process. I have done that, and am now sending these 3 letters to you via registered mail. Will you please contact me and verify that I have done everything I need to do in regards to Water Right number 37-12819. I would appreciate a phone call, in addition to a written letter of verification. Thank you.

Sincerely,

David Jensen

To Whom It May Concern:

This letter is in regards to Water Right Number 37-12819, David and Brenda Jensen's beneficial use of water from Dog Creek. When we filed our claim to the water from Dog Creek 20 years ago, we had a claim date of 1930. This date was obtained from Vic Cheney, a former owner of this farm who told us that he used water from Dog Creek for irrigation purposes. We are no longer able to verify this 1930 date because Vic Cheney is now deceased. We do have two verifications of a 1944 date, but we would like to be able to retain the 1930 claim date, but are not sure how to do this, since Vic Cheney is gone. Can you tell us if it is possible for us to retain this 1930 date? We look forward to hearing from you.

Thank you,

David E. Jensen
Brenda Kay Jensen

14 June 2005

In the spring of 1944 I, Valoy Christopherson Jensen, moved with my family, the Leonard and Grace Christopherson family onto the farm northwest of Gooding with the present address of 1723 E. 1250 S. My dad pumped and diverted water from Dog Creek beginning in 1944 and for many years after.

Respectfully,

A handwritten signature in cursive script that reads "Valoy Jensen". The signature is written in dark ink and is positioned above the printed name and address.

Valoy Christopherson Jensen
1719 E. 1250 S.

To Whom It May Concern:

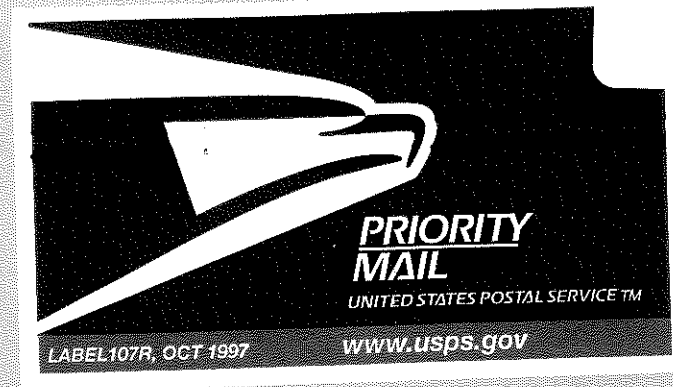

This letter is in regards to Water Right Number 37-12819, and the beneficial use of water that runs in Dog Creek. David and Brenda Jensen are the current owners of the property at 1723 East, 1250 South in Gooding. Leonard Christopherson purchased this farm in 1944. He was a neighbor to me and he diverted and pumped water out of Dog Creek for irrigation purposes from the time he purchased the farm. Water from Dog Creek has been used for irrigation since this time.

Sincerely,

A handwritten signature in cursive script that reads "Floyd Thornton".
