**NOTICE OF ERROR
REPLY**

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS:

Water right number: 21-146

RLF I LLC RLF II LLC RLF III LLC RLF IV LLC
CO RICHARD D DIVINE
PO BOX 2601
CRESTED BUTTE CO 81224
Telephone Number: (303)499-9964

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

SEE NOTICE OF ERROR REPLY FOR RIGHT NO. 21-93

2. Describe the changes you wish to make in the proposed recommendation:

3. Give a brief explanation as to why you disagree with these portions:

I AGREE with this proposed recommendation: no changes need to be made.

DATE: 1/13/2006 SIGNATURE: Robert L. Harris

Re: RLF, LLCs Notice of Error Reply for Water Right Recommendations

Dear Sir or Madam:

Enclosed are Notices of Error Reply for eight water rights owned by the RLF, LLCs. Also enclosed is a spreadsheet that summarizes the water right claims and IDWR's recommendations. As you can see, there is a significant disparity in the claimed individual diversion amounts and the recommended combined amounts. There is also a significant difference in the claimed individual acreages under each water right and the recommended combined amounts. These limitations affect five out of the eight water rights. The other three water rights were recommended just as they were claimed, and we have no problems with these recommendations.

However, as to the five combined rights, we have some concerns. In visiting with Mr. Rick Blanchard, the previous owner of the property, he has indicated that the acres recommended are not accurate. He has not seen a copy of the place of use map yet. I have sent one to him for his review. However, in explaining the place of use map to him over the phone, it appears to him that the Department has excluded a number of pasturing areas for livestock from being recommended. Mr. Blanchard has said that when possible he has used those water rights to irrigate those pasture areas. Once he receives the map and reviews it and indicates those pasture areas he has irrigated, we will submit that map to you with his comments. Mr. Blanchard has operated that property for many decades and is quite familiar with how the water rights have operated in the past. Given Mr. Blanchard's experience, Mr. Divine does not think these recommendations are adequate.

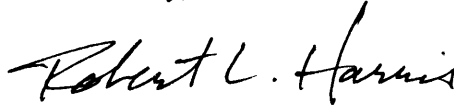

In addition, Mr. Blanchard has raised some concerns with Water Right No. 21-13013 (formerly Water Right No. 21-114). In discussing a letter from IDWR from November 2005 with Mr. Blanchard over the phone, he is quite aware of the situation concerning this water right. In his view, and in the view of George Nedrow, this water right should have 0.8 cfs as its diversion rate (40 inches of water). I have sent Mr. Blanchard a copy of the letter for his review and asked for his comments. He said he had very recently visited with George Nedrow concerning this issue and feels there is enough evidence to support an individual diversion rate of 0.8 cfs.

Once we receive any documents or hear anything from Mr. Blanchard or from others, we will forward that information on to you. We would suggest contacting Mr. Blanchard concerning these recommendations in order to best understand the history of these rights.

Lastly, the Internet does not indicate whether or not a recommendation for water right 21-10435 has been issued. Could you please inform us of the status of that water right.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Robert L. Harris
HOLDEN, KIDWELL, HAHN & CRAPO, P.L.L.C.

Enclosures

c: Rick Divine
