REF: Snake River Basin Adjudication (SRBA)
Claim 29-2311C

Subject: Change in Place of Use

Dear Lee,

IDWR's investigation of the Notice of Claim listed above indicates that there has been a change in place of use of the water right, to the new place(s) of use for the purposes of use listed below.

Purpose of Use: Irrigation

New place of use: SWSW of section 24, township 7 south, range 38 east.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without obtaining IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the change not result in injury to other water rights.

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and submit some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987. An information sheet is enclosed that describes the types of evidence that can be submitted for showing the date of the change. Acceptable evidence is listed in the "Evidence of Priority" brochure enclosed with this letter.

This office must receive your response by **April 4th, 2002**. If no response is received, then your claim to water for the new places of use will not be recommended to be decreed. The lack of verification of a claimed change may or may not result in a reduction of the total amount of water to be recommended.

If you have any question, please feel free to contact me in the Soda Springs Office at 547-3993.

Sincerely,

Cindy E. Bird
Adjudication
