Subject: Enlargement claim

These are claims for the enlargement of water rights in Swan Basin.

The claimed priority date for the enlargements is 1976. An affidavit submitted with the claims supports irrigation from 1976 to 1979. The affiant also refers to the irrigation having occurred "...for quite some time..." before the irrigation in 1976.

If the irrigation occurred prior to 1971, it could have been claimed in the Lemhi adjudication as a valid beneficial use claim and would have been decreed in that action. Irrigation of the land in question was in violation of the mandatory permit statute in 1976, and continuing to 1979. The Lemhi decree was final in 1986.

If the irrigation started after the commencement of the Lemhi adjudication and continued after the decree was final in 1986, and therefore prior to the commencement of the SRBA on November 19, 1987, it could be recommended pursuant to §42-1426, Idaho Code. The aerial photography available to IDWR is inconclusive as to irrigation under these claims during that time period.

The enlargement claims 74-15662 and 74-15663 will not be recommended for decree in the SRBA.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

No lawful appropriation shown.

EXPLANATORY MATERIAL: BASIS OF CLAIM -

No lawful appropriation shown: There are a number of circumstances in which a claim is proposed to be disallowed on this basis. This is most commonly included for a claim based on beneficial use or posted notice that is proposed to be disallowed because the right claimed is not within an exception to the mandatory permit statute, and beneficial use of water prior to the mandatory permit statute was not confirmed. This is also included where a claim is proposed to be disallowed because the claim is to water that is not public water subject to appropriation. This is also included where a right was determined not to exist in a prior adjudication.
