RE: Snake River Basin Adjudication Claim (SRBA) 29-02342A

Dear Rodney and Vaeann,

I am writing in concern to SRBA claim 29-02342A filed by Jack Wesling. I have been working in the Blackrock area and it has come to my attention that Jack passed earlier this spring and you're his relation. I am sorry for your loss.

Earlier this spring I sent some correspondence to Jack that was never responded to. Below is the body of the letter I sent to Jack. If you are the executor of his estate, I would encourage you to file a change of ownership (enclosed) to put the claim in the appropriate name and to send me the information requested below.

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. During my initial review of your claim, I noticed that the land claimed doesn't appear to have been irrigated in 1987 at the start of the SRBA and currently is not irrigated. In an on site inspection I found the groundwater well sprinkler pipe indicating that the claimed place of use had historically been irrigated.

I need to know when the place of use was last irrigated. Please provide me with documentation of the last time the well water was used to irrigate the place of use described on the claim. Preferred documentation would be power records or a notarized statement from someone with first hand knowledge of when the land was last irrigated. Please return the documentation to this office **as soon as possible**.

I apologize for the timing of this letter, however, deadlines are drawing near and I need the above information in order to make a positive recommendation on this water right. Please feel free to contact me at 525-7161 if you have any questions.

Respectfully Submitted,

**Craig L. Saxton
Water Resource Agent
Adjudication Bureau**
