Subject: FW: Contact Record Problem

Somehow the contact record "110121" was changed and I don't have a clue why.

The story is this. I got a NOE reply back for SRBA recommendation 29-02342B. One of the issues was the name listed as an owner reads:

ERNESTATE J LARSEN

Rather than:

ERNEST J LARSEN

So I did a bunch of research to try to figure out what was going on and it looks like all of Mr. Larsen's water right records got changed to "ERNESTATE".

29-02342B	Claim
29-02342B	Recommendation
29-11706	Claim
29-11706	Water right

Thus, I checked for notes in the database for some indication for this change. I could not find any.

I had Dave Carlson in Eastern send me copies of the claims and they all say "Ernest". I checked the VAX records for both claims 29-02342B and 29-11706 and they both say "Ernest". Then, I checked the SRBA court record for PD's domestic right 29-11706 and that shows "Ernest" (much to my relief).

So, the conclusion is I think there was some computer error that changed the contact record.

Based on this information I went ahead and changed the contact record for 110121 back to reflect "ERNEST J LARSEN". After changing the claim records for both of the above mentioned rights, it automatically changed the WR record for 29-11706 and recommendation for 29-02342B.

I am only bringing this to your attention so you know there is a "Glitch" in the system.

I realize this is long winded so feel free to drop me a line if you have any questions.
