REF: Snake River Basin Adjudication (SRBA)  
Notice of Claim 27-2019A

Subject: Change in the point of diversion

**RESPONSE DATE: MARCH 12, 2004**

Dear Claimant(s):

Idaho Department of Water Resource's (IDWR) initial investigation of the Notice of Claim listed above indicates that there has been a change in the point of diversion as described below:

**Previous Point of Diversion:** SWSW section 8, township 3 south, range 35 east.

**New Point of Diversion:** SWSENE section 8, township 3 south, range 35 east.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights.

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

This office must receive your written response by the date shown above. If no response is received, then your claim to water from the new point of diversion will not be recommended to be decreed in the SRBA court.

If you have any questions, please feel free to contact me in our Soda Springs office at 547-3993.

Respectfully,

Cindy E. Bird
