Re: 2-7075

Dear Leonard and Emma:

In response to your "Notice of Error" for claim 2-7075 a new claim must be filed for the additional acres that you indicated on the enclosed map. According to our records it appears that the extra land adds up to approximately 8.8 acres. I have prepared a claim that must be signed and notarized and returned as soon as possible to allow us to be able to recommend the additional acres. If any or the entire claim does not accurately describe the extra acres you referenced on the enclosed map please make any necessary changes.

Explanation of the claim:

- The claim number has been left blank, as it will be different than the original 2-7075 when the process has been completed.
- The priority date is shown as the day after the field exam that was conducted for license 2-7075 – these 8.8 acres were not included on the original license and therefore cannot have the same priority date as the rest of the 2-7075. Unless you believe the priority date to be after this date, this is the earliest possible date that can be recommended. For the time being your signed claim is sufficient to start this process, however it is **up to you to provide us with proof of priority** for the date claimed. Enclosed is a pamphlet describing the types of evidence that can be used.
- The point of diversion is the same as that on 2-7075
- The diversion rate is the same rate used for 2-7075
- The place of use is the legal description for the area indicated in *green* on the map.

Should you decide to return the materials in a mailer different from that enclosed, please include the notation "ATTN: SRBA Claim Number 2-7075" on the front of the mailer.

If you have any questions, please contact this office. Our toll free number is 1-800-451-4129. It will help speed things along if you have your claim number, 2-7075, handy when you call.

A handwritten signature in cursive script, appearing to read 'Misty Mount'.
