Re: Water right claim no. 29-2438B

Dear Mr. Hansen:

It has come to our attention through processing claims to a water right for the sister water right (29-2438A) to the above referenced right, that water right 29-2438B has not been claimed in the Snake River Basin Adjudication (SRBA). This water right was created by means of Transfer 3290. For your convenience, I have included a copy of Transfer 3290 for your files.

Whitewater Development Co. executed transfer 3290 for the purposes of preserving the capacity of irrigating more than the standard ½ acre of lawn and garden per lot. More specifically, the right allows the irrigation of 37 acres within the service area of your subdivision. Without this water right, each homeowner would be limited to irrigation of up to ½ acre of lawn and garden areas based upon the domestic water right 29-7819.

Currently, we are in the final stages of preparation for a director's report for your area to be sent to the SRBA court in Twin Falls in June 2003. I have prepared a claim form for you to sign in the presence of a Notary Public and return to our office to my attention. There is a \$50.00 filing fee. Failure to file will result in loss of the water right.

If you feel that your irrigation needs are sufficient without this water right, I would ask that you let me know. The owners of the sister water right would likely be happy to recombine it with their water right. Either way, I need a response in short order.

If you have any questions in this regard, please feel free to call me at 525-7161.

Sincerely,

A handwritten signature in black ink that reads "W. Roger Warner". The signature is written in a cursive style with a large, stylized "W" and "R".

W. Roger Warner
Adjudication Agent
