Re: Snake River Basin Adjudication (SRBA)
Notices of Claim to a Water Right #2-80, 2-81 and 2-7336
Your Client: Grand View Mutual Canal Company

Dear Mr. Honsinger:

You will find with this letter a copy of a map that I think is a final product between the Company's directors and IDWR. The map was used to determine the number of irrigated acres for the Company's water rights. I presume the total 2,914 counted acres is acceptable to the Company.

The enclosed revised recommendations should meet with your approval for the errors you identified in the notice submitted to IDWR for rights 2-80 and 2-81. I acknowledge the license upon which right 2-7336 is based had a longer season than the one you see enclosed. Just as the other rights are bound to the Idaho Power Agreement made by the Company in 1952, the diversion of right 2-7336 by the same diversion and conveyance system carries the same limited season that is reflected in the recommendation.

The directors of the Company represented the interests of the Company shareholders very well. I am indebted to the time, effort, and expense these gentlemen expended to get these water rights ready for the Director's Report.

Sincerely,

Donald V. Shaff, MPA
Adjudication Bureau Chief
