RE: Preliminary Water Right Recommendation for 29-02462D

Dear Mr. Summers,

.....
It looks like the original letter (below) I sent didn't make it in time. I am forwarding the letter to the address on the returned envelope.
.....

Enclosed is a copy of my preliminary recommendation for your water right. Also enclosed is a colored map showing the irrigated place of use (POU) and point of diversion (POD) that I am planning on recommending. If you feel any part of this recommendation is inaccurate, please contact me as soon as possible.

When I say "Preliminary Recommendation" I mean that this is what I will recommend unless some unforeseen information comes to my attention.

You mentioned you have a person that will be taking care of your place while you are overseas. One option you have is to add his name to your claim as a representative. The caretaker of your place will then get copies of any mailings that the department will be sending regarding your water right. This would include any objections to your water right that might be made by a third party. Upon your return, you can always have his name removed.

To do this, just send a signed statement saying that you would like your caretakers name added to your water right claim as a representative, along with his contact information. As a representative, he will not have the power to make any changes on your water right unless he is given power of attorney.

Due to the short time frame we have for correspondence, please feel free to contact me at my home at (208) 523-4904. I will be leaving town on Saturday afternoon June 23rd and will not be returning before you leave the country.

Thank you for your patience. As always, feel free to contact me at the Idaho Falls office at (208) 525-7161.

Respectfully submitted,

Craig L. Saxton
