Re: Water right Nos. 29-2467, 29-7371, & 29-7172.

Dear Mr. and Mrs. Wight,

I am enclosing revised preliminary recommendation for the above referenced adjudication claims for a water right. You may compare them with the previous version for differences.

Regarding your question concerning the diversion limit. Apparently, when the field exam was conducted for the water license, the wells were only capable of producing up to 5.31 cfs.

If you have any further questions in this regard, please feel free to call me at 525-7161.

Sincerely,

W. Roger Warner
Adjudication Agent

Enclosure: Preliminary Recommendations for WR Nos. 29-2467, 29-7371, & 29-7172.
