A & B Irrigation District

Talked with Dan Temple regarding the recommended point of diversion for the A & B Basin 01 rights. He thought that the p/d should be in section 24 rather than section 25. He said the BOR showed section 24 as well. He sent someone out to gather a gps location today and the lat/long coordinates are as follows:

42 degrees 32 minutes 00.300 seconds North
113 degrees 56 minutes 49.730 seconds West.

However, this point seems unreasonable since it shows up about 200 feet into the river channel based on the aerial photos. The aerial photos appear to be rectified correctly with the gcdb. Therefore I am making the recommendation based on the aerial photos.
