RE: Amended Notice of Error for recommendations in Basin 69

Dear Michael:

I met with Steve Spencer of the U. S. Forest Service today to address their concerns about recommended points of diversion and places of use for a number of Idaho Department of Fish and Game stockwater claims in Basin 69. Steve had concerns about four (4) claims, specifically 69-12A; 69-4107; 69-10053; and 69-10054. After reviewing Steve's information and maps, I believe the above claims need to be amended as follows.

69-12A Amend Point of Diversion-begin of stream flow to:
T16N R05W S14 SESE

Remove Place of Use: T16N R05W S23 SWSE

69-4107 Amend Point of Diversion-begin of stream flow to:
T17N R04W S7 SWSWSE

Add comment that place of use in T17N R04W S7 SWSE does not include National Forest land.

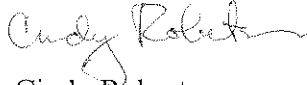

69-10053 Amend Point of Diversion-begin of stream flow to:
T17N R04W S19 NESENW

Remove Place of Use: T17N R04W S19 SWNE
Add Place of Use: T17N R04W S19 SENW

69-10054 Remove Place of Use: T16N R04W S7 NESE
T16N R04W S7 NWSE
T16N R04W S8 NWSW
T16N R04W S8 SESE

I have enclosed a copy of a map showing locations of U.S. Forest lands (lands shown in green). All of the above changes should remove portions of the claims that are on U. S. Forest lands. Please call me at 287-2715 or Steve Spencer at 331-5944 if you have questions. Thank you for your assistance in correcting the claims.

Sincerely,

A handwritten signature in cursive script, appearing to read "Cindy Robertson".
