Re: Disallowal of irrigation portion

See 29-480 for notes on interview w/ Hans Hayden, see 29-2144 for letter to Russ Hayden regarding evidence of ~~possession~~ ~~and~~ continued use on these two rights.

Russ Hayden provided the affidavit filed with 29-2144, delivered to me by Hans Hayden. Hans related that Russ could not verify use of the spring for irrigation.

When I was there the pump house for domestic/stock was still in place and it appeared the camp ground still has occasional use, so I plan to recommend the D&S portion
