

A29-2535, A29-2536, A29-2537 + A29-10247.
Max Rigby:

12/18/01 11:52am: Max B. Rigby came into the office on the 2nd round service notice he received from the Department. The notice was on land in secs 7, 8 + 16, T8S, R39E. The imagery appears to show some irrigation in sections 7 + 8. This is all dry farmed. I have irrigation claims in section 16. All of Max's land is in CRP. So, he is going to get me copies of the CRP contract. The land has been in CRP for about 15 years. I also gave him an evidence of priority brochure on A29-10247 claim.

When the snow clears I'll have to go out and check the claims.
