On September 17, 2004, the Idaho Department of Water Resources filed its *Director's Report for Basin 45, Reporting Area 10, For Irrigation and Other Rights*, which included recommendations for the above-captioned water rights. No objections were filed. **Partial Decrees** were issued on June 9, 2005. On October 13, 2005, the claimant filed a *Motion to Amend Notice of Claims* asserting that the claims were affected by the outcome of proceedings in related subcases currently pending before the Special Master. Because **Partial Decrees** had already been issued this Court required the claimant to file a motion to set aside the **Partial Decrees**. On January 23, 2006, the claimant, through counsel, filed a *Motion to Set Aside Partial Decrees*. A hearing was held on the *Motion* February 21, 2006. Following the hearing the Court concluded that the claims should have been identified and withheld from decree pending the outcome of the related subcases and that the claimant met the standards for setting aside the **Partial Decrees**.

Therefore, IT IS HEREBY ORDERED, that the *Motion to Set Aside Partial Decrees* is **Granted**. The claims are referred to Special Master Dolan for proceedings on the pending *Motion to Amend Claims* and for all further proceedings consistent with the
