1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

A Survey shows there is 40 acres which we irrigate for the last 35 years. It has been irrigated since the original homesteaders in 1915. South of Carlson Creek 40 acres. I use water year round, in winter to fill a storage pond.

2. Describe the changes you wish to make in the proposed recommendation:

Review the number of CFS used to irrigate 40 acres year round. South of Carlson Creek 40 acres, 1st priority.

3. Give a brief explanation as to why you disagree with these portions:

This is what is being used for 35 years by myself and since the original homesteaders in 1915. The survey shows 40 acres of land that is irrigated for a hay field.

NO I AGREE with this proposed recommendation: no changes need to be made.
