I spoke with Skip and Don S. about the three rights claimed by Basic American Foods. Skip indicated the land application was a pre-1987 practice so the recommendations can include C05 and show the QQs where land application occurs. He indicated the map illustrates the QQs to be identified as the place of use.

From the conversation between Don and I, we came up with two conditions listed below. The first condition is for 27-7411 and is actually on license but does not show up in the data base.

Water used under this right is for cleaning the distribution system used to discharge plant wastewater. Plant wastewater is co-mingled with fresh water and is used for land application.

Use the following remark for 27-4019 and 27-2116. This remark is a modified WD8. Don said to leave it as a place of use remark.

The place of commercial use includes land upon which wastewater may be applied for land application purposes to satisfy water quality requirements. Water diverted shall not be used for land application unless the water is first used in potato processing as authorized by this water right.

Since the rights do not provide for using ground water to irrigate I suggest not including any reference to irrigation use.

I hope this helps. Let me know if you still have questions.

Ernie

Subject: Basic American Foods (Pillsbury Co.)

good morning Candice,

I have 3 claims for Pillsbury Co. now owned by Basic American Foods that uses the water to process potatoes then uses the wastewater with there canal water to land apply the water. I don't find an appropriate remark or condition to fit this application. Would you please create an appropriate condition with the correct wording to work in this application?

Claim numbers 27-4019, 27-7411 and 27-2116.

Thanks you,
Cindy

Hi Skip,

We received today via certified snail mail the Pillsbury files. When Cindy was reviewing them, it is not clear the location of Wells 2 and 3.

Well #2 is identified as a 16" well drilled October 1956 for French Company. It is apparently 150 feet deep.

Well #3 is identified as a 20" well drilled April 1958 for French Company. It is apparently 243 feet deep.

All 3 of their claims describe the diverting works as a "well, 150' deep, pump, pipelines".

So pick a claim, any of the following, 27-2116, 27-4019, or 27-7411. Then pick a well, any well, just so it is #2 or #3, to come up with a match. Is one well service 2 claims?

So many questions, no answers at this end. Your turn.
Barbara :-}

PS Please write to Cindy, I might not get your quick response. :-}
