Re: Answers to Snake River Adjudication Investigation of
Claim No. 73-111A, Letter Dated February 6, 2006

Dear Roxanne Brown:

From my latest information the "Hardscrabble" or "Cotter" ditch are one in the same. The name used at the present time is "Cotter" ditch.

Our irrigation water source is from the "Cotter" ditch along with some from a small "Spring Creek" ditch supply. Presently the water is supplied by open ditch and dispensed by flood irrigation. The above is illustrated on the enclosed map.

If you have any further questions, please feel free to contact me at our Goleta address or at 805-968-2967 during office hours.

Sincerely,

A handwritten signature in cursive script that reads "David Giorgi".

David Giorgi
