Right No:	Rate of Diversion	Irrigated Acres	CFS / Acre
2-2436a	0.52	26	0.020
Kloster	0.063	1.3	0.020
Howard	0.49	24.7	0.020

* Only 1.3 acres of the purchased (3.15^{1.5} ac) land is covered under the WR - however, 0.63 cfs was allocated to the Kloster's and a transfer must be approved for the remaining 1.85 acres. The cfs for the Howards is recommended based on the split (ownership change) and reflects an excess of 1.25 ac compared to the diversion (cfs). 3.15 acres and 0.63 cfs was intended to be part of the sale - but not all of the WR of the land (3.15 ac) was covered by the WR.
