Water Right No. 37-791B
Delores Smith, Maurice Smith

Answer to E.

There is no justification for over one inch per acre. Measuring devices were not in place in 1987 and there are no reliable records showing over one inch per acre has historically been used. Reliable measuring devices still do not exist. Decker spring is over appropriated and granting over one inch per acre, which is more than can be put to beneficial use, will deprive others of their water rights.
