Water Right No 37-11145
Estate of Verda Woods
C/o Jennette Brizidine

Answer to E

The land being irrigated with this water was originally irrigated with water from Sullivan Springs, 06S, 13E, S21, SE NW, which originates on the farm being irrigated. The point of diversion was changed to Decker Springs depriving other water rights of their water. This change in point of diversion was not made through legal channels. It was protested by the adversely affected water right owners and a feud exist to the present over this dispute.

This claim should be supplied from Sullivan Springs its original source. Sullivan Springs rises on the property and presently is flowing to the Snake River unused.

Decker Springs is over appropriated and Sullivan Springs is presently unused. A fish license on Sullivan Springs is held by the Verda Woods estate but is presently unused.

The Verda Woods estate quit using Sullivan Springs water for irrigation and changed their diversion for irrigation to Decker Springs. They then started using Sullivan Springs for fish production. Effectively they gained Decker Springs water for irrigation and changed their Sullivan Springs water for fish. Decker Springs was fully appropriated under water right No. 37-4147. The water was taken from No. 37-4147 and the owner deprived of his water. A feud exist to present.

This claim should be supplied from Sullivan Springs.

Decker is over appropriated with water rights senior to the Woods claim.
