Re: *Objection(s) to Your Basin 37 Water Right(s)*

The objection or objections which accompany this letter were filed today at the SRBA court on behalf of Gary and Helen DeMoss to address historic diversions to storage from Dry Creek, a tributary to the Big Wood River, under water rights 37-856, 37-2780, 37-7754, and 37-2778. This letter and the attached chart identify the affected water user community in order to facilitate resolution of this issue with neighboring water rights on Dry Creek and downstream water rights on the Big Wood River and the Malad River.

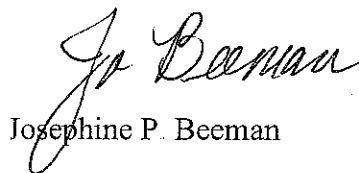

Historically the diversions to storage for 37-856, 37-2780, 37-7754, and 37-2778 have not been subject to curtailment as a result of priority calls from downstream senior direct flow irrigation water rights before April 1 or by downstream senior direct flow stockwater rights at any time of the year, or as a result of priority calls from any other downstream water rights. These downstream rights on Dry Creek, the Big Wood River, and the Malad River are listed in the chart attached to this letter. Additional downstream water rights may be identified as subsequent Director's Reports are filed at the SRBA court.

The objections to these downstream water rights seek language to preserve the historic delivery practices for 37-856, 37-2780, 37-7754, and 37-2778, explaining that the practices are based upon court decree and local water master delivery.

You are welcome to call. We look forward to working with you.

Sincerely,

BEEMAN & ASSOCIATES, P.C.

Josephine P. Beeman

11. **I object because:**
  - ☐ This water right should not exist
  - ☐ This water right was not recommended, but should be recommended with the elements described above.

**REASONS SUPPORTING OBJECTION(S):** With historical practice pursuant to decree and water master delivery, diversions to storage under water rights 37-856, 37-2780, 37-7754, and 37-2778 have not been subject to curtailment as a result of priority calls from downstream senior direct flow irrigation water rights before April 1 or by downstream senior direct flow stockwater rights at any time of the year, or by downstream senior direct flow hydropower water rights, recreation or aesthetics water rights, or instream flow water rights at any time of the year. In accordance with the historical practice, these four water rights should

not be subject to curtailment as a result of priority calls from downstream senior direct flow water rights

This water right should be decreed with the following general provisions

Separate Streams:

For purposes of water distribution in the Big Wood River drainage basin (including the Malad River to which the Big Wood River is a tributary in Basin 37), water rights from the following sources to the extent recommended herein, are not considered junior to water rights from the Big Wood River, and the Malad River, and will be administered separately from all other water rights in Basin 37:

Dry Creek tributary to Big Wood River in T05S, R14E, Section 22

Separate Administration:

The following water rights from the following sources of water in Basin 37 shall be administered separately from all other water rights in Basin 37 in accordance with the prior appropriation doctrine as established by Idaho law:

Dry Creek tributary to Big Wood River in T05S, R14E, Section 22

The following water rights from the following sources of water in Basin 37 shall be administered separately from all other water rights in the Snake River basin in accordance with the prior appropriation doctrine as established by Idaho law:

Dry Creek tributary to Big Wood River in T05S, R14E, Section 22
