QD The acreage in question is used as a pasture for cattle and horses. This small corner piece has a small ~~stream~~ stream that winds around through this piece (Spring Creek). The center of the corner has a lot of willows, but the outer part is good pasture. I was probably in error by including all of the fenced-in portion of this field as non-irrigated.

There are probably 6 acres that can be irrigated along the east end and along the south side. This acreage has been irrigated by sprinkler pipe.

00 Claim #2207043 - Pasture of James Price, Area in the foreground has been irrigated with sprinklers. Low-lying area in background is pasture as well. Spring Creek runs through this area.

Mr. Ernest Carlsen
Water Rights Supervisor

I enjoyed the water meeting Wednesday, Feb. 23rd 1 pm at the Driggs Super 8 Motel conference room. I also enjoyed meeting you and receiving the help you gave me at that time on our Ground Water Right SBRA # 22-7043.

As mentioned, I submitted to your office a Notice of Error Reply on Feb. 18th, 2005, requesting live stock water use with this claim as we have been using it as such with the irrigation purpose since the license was granted. We didn't realize it was required.

We also noted and mentioned that the original license for water right # 22-7043 noted total number of acres to be irrigated as 149. The Notice of Error Reply Form noted only 139.

Attached to this letter please find a map showing ground or acres left off of the 149 acres to be irrigated by the water license original amount. We would request the original amount shown on license (149) be retained.

If you have any questions or need additional information please call James Price at

(208) 354-2381 or cell phone (208) 709-6277.

Thank you,

James Price

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

This was primarily used for irrigation, but, has been used and intended for LIVESTOCK WATER AT SEASONAL TIME AT YEAR.

2. Describe the changes you wish to make in the proposed recommendation:

*include LIVESTOCK WATER USE
* RETAIN 149 ACRES AS WATER LICENSE SUSTAIN INSTEAD OF 139*

3. Give a brief explanation as to why you disagree with these portions:

we don't disagree with anything EXCEPT fee! (if NECESSARY) TO ADD LIVESTOCK WATER & ORIGINAL 149 ACRES WATER RIGHT.

I AGREE with this proposed recommendation: no changes need to be made.
