Case No. 39576

STANDARD FORM 1
OBJECTION

Please fill in the following information:

B: NAME AND ADDRESS OF PERSON OBJECTING

Name: Charles & Joan (Poesy) Thomsen

Address: 2599 S. Marsh Creek Road

McCammon, ID 83250

Daytime Phone: _____

Name & Address of Attorney, if any:

C: CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: Same as above

Address: _____

APR - 5 2004

BA

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ Name and Address
Should be: _____
2. ☐ Source
Should be: _____
3. ☒ Quantity
Should be: 1) .05 CFS for 2.5 acres, not .02 for 1 acre
2) .03 CFS per acre, not .02 CFS per acre
4. ☐ Priority Date
Should be: _____
5. ☐ Point(s) of Diversion
Should be: _____
6. ☐ Instream Flow Description
Should be: _____
7. ☐ Purpose(s) of Use
Should be: _____
8. ☐ Period of Year
Should be: _____
9. ☐ Place of Use
Should be: _____

11. I object because:

☐ This water right should not exist.

☒ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): _____

Please see attached sheet

E. REASONS SUPPORTING OBJECTION(S):

The IDWR preliminary recommendation on this water right - 29-4101B reduced the acres claimed to one acre based on an aerial photo taken of this property in 1987 (see enclosure 1). This photo does not provide a complete or true evaluation of this acreage that was irrigated on this property under our water right, 29-4101B.

We (Charles Thomsen and Joan M. Poesy) purchased this property (6.7 acres) from Keith Henrichs on May 31, 1985. In the purchase agreement a water right was granted from the seller of .05 CFS to irrigate 2.5 acres of our property (see enclosure 2). We proceeded to irrigate these 2.5 acres of our property from Walker Creek using an irrigation ditch and an in stream pump. The acreage shown in the photo was irrigated from the irrigation ditch and the acreage above the ditch was irrigated with the pump.

Beginning in 1986 and lasting until the Walker Creek irrigation rotation agreement was signed in February of 1988 Mr. Keith Henrichs, the individual we purchased the property from would not allow us to pump from Walker Creek to irrigate the acreage above the ditch. Please review the statement from Chuck Thomsen dated October 27, 1988, that explains the irrational reasons for Henrichs' actions (see enclosure 3).

This controversy was settled by the Walker Creek irrigation agreement signed by all Walker Creek water users in February 1989 (see enclosure 4). After the agreement was signed we began irrigating the acreage (1.5) above the ditch again and have continued to irrigate this acreage for the past 14 years. Please note the Walker Creek agreement provides our property 16 hours on our rotation.

Please review claim no: 29-4101 which shows this property was included in an amended claim filed by Mr. Keith Henrichs in October 1987 (see enclosure 5). Our property is that 6.7 acres above Marsh Creek Road. Claim no. 29-4101 is now 29-4101A and is also enclosed for your review. This claim has been reduced in acreage but has received an increase from .02 CFS per to .03 CFS per acre because the soil has a low water holding capacity (see enclosure 6). Our acreage has the same type soil and should receive the same consideration (see enclosure 7).

of October, 1988.

(SEAL)

Jim Spinner

NOTARY PUBLIC for Idaho
Residing at: Pocatello

Statement for Walker Creek Hearing - Oct. 27, 1988

Name: Chuck Thomsen
Claim: Statutory - 29-4101 - Supported by Deed to property.
Priority: March 15, 1912
Purchased property: April 1, 1985
Located: Downstream from John Schultz

I purchased this property from Keith Henrichs in 1985 with water rights included. This is supported by my deed and Keith Henrichs verbal agreement with me prior to moving in. In fact, Mr. Henrichs sold me an irrigation pump and pipe to irrigate my top pasture. However, when I started using the pump for this purpose, Mr. Henrichs told me I had to shut it down because he claimed I was using his water out of Walker Creek. This same year (1985) Keith Henrichs tore out my dam and diversion which was used for diverting water to the lower three acres of my property for over 30 years.

The following year (1986) Keith Henrichs tore out the side of a new diversion I had rebuilt in the spring. In 1987 he pulled my suction pipe out of my ditch and told me to shut it off or burn it up.

Since the Licensed Water users and I filed a protest in early 1988, Keith Henrichs has tried to enlist my support to deny these individuals their water rights. His main argument has been that since we are both claim holders it would be to our best interests to cooperate with each other. I have refused to cooperate with him in any way and fully support the other users attempts to obtain their legal water rights. I have observed Keith Henrichs flood his property many times in the past three years. Small lakes

have formed on numerous occasions while downstream users have been forced to let their pastures burn up. I feel that I have enough water assigned to me by our 1988 Rotational Agreement and if Keith Henrichs would use proper irrigating methods his share according to the agreement would be sufficient.

We all agreed to the 1988 Rotational Agreement. I believe it was fair and equitable to all users and was a much more beneficial use of water than in years past when Keith Henrichs claimed all of Walker Creek water. It is difficult for me to understand the reasons why the Department of Water resources has issued a "Cease and Desist" order against the other Licensed water users when every condition of the agreement was adhered to by all users.

Chuck Thomsen
2599 S. Marsh Cr. Rd.
McCammon, Id., 83250

(4.)

WALKER CREEK IRRIGATION ROTATION AGREEMENT

The undersigned water users of Walker Creek, located in Bannock County, Idaho, hereby agree to distribute the water of Walker Creek until such time as the rights and priorities of the parties have been formally adjudicated. The agreed distribution shall be as follows:

(A). If the flow of Walker Creek exceeds .36 cubic foot per second ("cfs"), the waters of Walker Creek shall be distributed by the undersigned users on a 10-day rotation period. The order of delivery and number of hours of use per rotation for each user shall be:

Keith Henrichs - 96 hours

Raymond Girard - 36 hours

Gene Wise - 31 hours

Bob Wardle - 31 hours

Chuck Thompson - 16 hours

John Shultz - 10 hours

Norman Rademacher - 20 hours

(B). If the water flow of Walker Creek falls below .36cfs, as measured as set forth below, then the above stated 10-day rotation period shall be modified and the undersigned users shall go to a 20-day rotation period. The modification from the 10-day rotation period to the 20-day rotation period will be based on the same acreage as the 10-day rotation period and on the same water allotment of .02cfs/acre/user. The number of hours of use per rotation credited to each user under the 20-day rotation period shall be:

Keith Henrichs - 192 hours

Raymond Girard - 72 hours

Gene Wise - 62 hours

Bob Wardle - 62 hours

Chuck Thompson - 32 hours

John Shultz - 20 hours

Norman Rademacher - 40 hours

The reason for the modification from a 10-day rotation period to a 20-day rotation period when the flow of Walker Creek falls below .36cfs is to allow the parties longer periods of time to irrigate so that they may preserve, in times of low water, their pastures and other appurtenant property. Any of the undersigned users may use the water during their stated turn on each rotation or may pass their turn to another user they so designate. Any such designation shall not effect the designating party's use of the water on the next rotation. Each of the undersigned users is responsible for regulating their headgate at both the beginning and end of their respective turn.

For a determination of which rotation period to use at any particular time, the measurement of the flow of water in Walker Creek shall be done at such time as the water level appears to be approaching .36cfs. Any of the undersigned users may request the Portneuf River water master, if he or she so consents, or some other third person mutually agreed upon by all of the undersigned users to measure the water. If a

WALKER CREEK IRRIGATION

PAGE 2

4/12/312/8

12
disagreement arises as to measurement, any of the undersigned users may request that a Department of Water Resources official measure the flow of water in Walker Creek. Such measurement by a Department of Water Resources official shall be deemed conclusive as to the level of flow in Walker Creek.

All measurements of the flow of Walker Creek used to make any determination under this agreement shall take place at the point of diversion used by water users Wardle, Wise and Girard. Any such measurements shall take place at a consistent hour at each time of measurement. An hour agreed upon by the parties is 10:00 a.m. on the day of measurement, or such consistent time as is convenient to the Portneuf River water master, the mutually agreed upon third party, or the Department of Water Resources official.

This agreement shall be in force and effect during the time period from March 15 through November 15 of each and every year, beginning with March 15, 1989, until an adjudication of the rights of the undersigned water users of Walker Creek is finally and fully completed. All prior agreements among the Walker Creek water users are superceded by this agreement. This agreement is binding on heirs, personal representatives, successors and assigns of any of the undersigned water users.

13

All of the undersigned, including the Department of Water Resources, agree that no adjudication has been completed on Walker Creek and that this agreement does not have any binding effect on any of the undersigned parties on any future adjudication. This agreement is solely a compromise agreement of a continuing controversy as to the rights and priorities of the parties to the use of Walker Creek and shall be considered solely in that regard. It shall not be considered as an admission in any regard by any of the undersigned parties as to their claims, licenses, permits or other arguments they may have in a subsequent adjudication. It shall not be considered binding, and shall not be used by any of the parties, including the Department of Water Resources, in any adjudication and shall not be considered by any Court in any hearing or other proceeding on an adjudication. All of the parties hereto reserve their objections to the various claims of the other users. The Department of Water Resources acknowledges and understands that the purpose of this agreement is solely for the purpose of a settlement of an on-going controversy. This agreement is a temporary, interim agreement until an adjudication of the rights of the parties can be formally determined.

The Department of Water Resources agrees that any cease and desist order issued to any of the undersigned

WALKER CREEK IRRIGATION

PAGE 4

4/12/312/8

14
users is hereby terminated. It is further understood that the parties who received cease and desist orders do not admit that the Department of Water Resources had any legal authority to issue the cease and desist orders.

The Department of Water Resources agrees to recognize this agreement and not to intervene in the agreement or interfere with any of the use of the undersigned unless such parties do not abide by the rotation agreement set forth above. The undersigned users understand that the Department of Water Resources cannot view the agreement as revising any water rights the parties may be determined as having in an adjudication, but is solely an interim agreement.

IN WITNESS WHEREOF the undersigned hereby execute this agreement and acknowledge that each clearly understands the terms and conditions stated herein.

RE: Walker Creek Rotation Agreement

Dear Mr. Spinner:

Enclosed is the executed copy of the agreement. I have kept a copy for the department's files, and am providing a copy to Mr. Goodell.

You, Mr. Goodell, and each of the water users are to be commended for negotiating rather than litigating this matter. I am confident that the spirit of cooperation, evidenced by the agreement and the forthright discussions at the conference of positive ways to resolve distribution and water supply problems on Walker Creek, will allow the community to use the available water in harmony.

Sincerely,

NORMAN C. YOUNG

Claim No. 29-4101

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

AMENDED

CLAIM TO A WATER RIGHT AMENDED

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Keith V. or Josephine V. Heinrichs

2526 S. Marsh Creek Road, McCannon, ID 83250 (Name of Claimant)

Telephone No. 254-3340

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of such claim follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) March 15, 1912
A claim is not acceptable on a ground surface.

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Walker Creek
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
tributary to Marsh Creek

(cfs, af)		(Domestic, Irrigation, Stock, Etc.)		(Both dates inclusive)	
Quantity		Use		(Mo., Day)	(Mo., Day)
Quantity	2.00 cfs	Use	Irrigation	Period of Use From	To
Quantity	0.02 cfs	Use	Stockwater	3/15	11/15

Quantity		Use		Period of Use From	To
Quantity		Use		Period of Use From	To
Quantity	2.02 cfs	Use		Period of Use From	To
TOTAL QUANTITY USED					

- (5) A) Point of diversion: (Location of point where water is diverted from its source)
NE 1/4 SW 1/4, Sec. 15 Twp. 8S Rge. 36E B.M., County of Bannock
 Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Private ditch 3' x 2' deep

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

No. of acres 31

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible: _____

NOTE: Include here the type and number of stock watered: 80 head of cows and calves

- (7) If you are claiming water as a member of an organization, list name of organization: 80 head of cows and calves

Pocatello, Idaho 83201

March 14, 1988

Keith Henrichs
2526 S. Marsh Creek Rd.
McCammon, Idaho 83250

Dear Keith:

As a follow-up to your question on the Hondoho gravelly silt loam, this soil has a lower water holding capacity than the average silt loam soil in Bannock County. As stated in our letter dated March 2, 1988, its water holding capacity is 4.8 to 6.6 inches, while the average silt loam is 11.4 to 12.6 inches of water.

Thus, if the State of Idaho, Department of Water Resources typical allocation per acre is .02 cfs per acre on average soils, then to have adequate water as stated above, an increase of 50% is needed.

The above information applies to all soils in your area labeled Honodaho gravelly silt loam.

Sincerely,

David L. Curtis
District Conservationist
