REF: Snake River Basin Adjudication (SRBA) claims
29-73A, 29-4208 and 29-4213.

Subject: Notice of Error reply.

Dear Layne and Eugene:

Thank you for taking the time to return the notice of error replies on your basin 29 claims. The places of use under the claims listed above were updated per our discussion and are reflected in the new layouts enclosed with this letter. The diversion rate under 29-4208 was not increased to match the states standard of an inch-per-acre because it was fully claimed already. Otherwise, the diversion rates were corrected to reflect the states standard. The overlapping place of use claimed under rights 29-73A and 29-2534 were also clarified with an additional remark ".....when used in combination they shall provide no more than the inch-per-acre."

The stock water under claims 29-4208 and 29-4213 were updated to reflect the in stream watering of the stock. The difference is that the water runs continuously for a 24-hour period.

If you have any additional questions please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird
Adjudication Bureau

Enclosure: Preliminary Recommendation and layouts for the claims listed above.
