To whom it may concern:

We, John and Connie Montelli, purchased a 5 acre parcel (RP25N21E334807A) in Northfork, Idaho, in 1979. We used water from the North fork of the Salmon river for irrigation and livestock. The water came from two diversion ditches, one coming off the river at the northwest corner of the property to a fish screen on the property, and the other coming from an irrigation ditch running alongside Highway 93 and entering the property at the northeast corner. There was also a domestic well on the property which supplied water to the residence.

We purchased the property from a man named Edwards, now deceased, who also used these water sources for irrigation, livestock, and domestic use when he owned the property.

We sold the property to William and Deanna Harrison in February 2002.
