1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Source & Quantity

2. Describe the changes you wish to make in the proposed recommendation:

Source - The source has always been known as unnamed Source. I am 74 yrs. old ^{native} and have never heard it referred to as Peck Creek.

3. Give a brief explanation as to why you disagree with these portions:

Quantity - Due to the length of the Ditch and the gravel formation thru which the ditch runs, the flow @ 6.280 CFS, would never reach the land designated as irrigated.

I AGREE with this proposed recommendation: no changes need to be made.
