called & left a message

Question on evidence of priority. Should it be the same as the Horton Claim?

Gene called back 2-9-06. He said that the ev of priority he submitted was for both of the claims. He said that he also uses canal shares but that Horton did not.

Evidence of priority was submitted by Gene Randell stating that the use has existed for 50+ years.

I met C. Gene to go thru his file and Scot Norton file because Gene sold property to Scot and he knew the system (and Mrs Norton approved). Gene said the the property line on black & white photo appears good and the areas in yellow within each owner looks very close where water is used on color photo's all lands are flood irrig around rocks & high ground and is all pasture - grass, trees & etc. he marked out approx where ditchess and Pod's are on photo then we went down thru property to locate Pod's = GPS:
