OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Use of this right is combined with water from Salmon River Canal Co. Ltd.

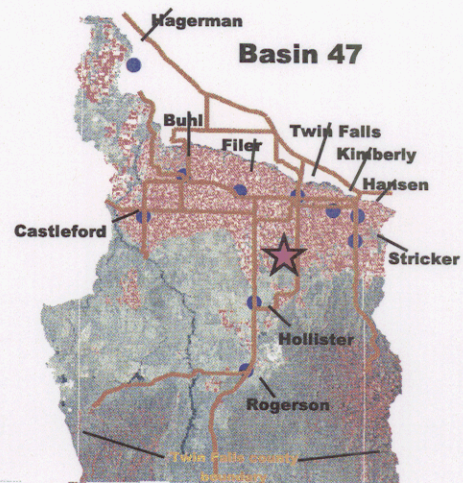

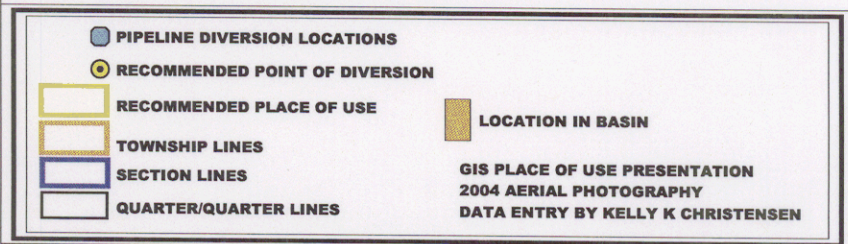

This right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.

To whom it may concern; attn. Bill Peters

from Harold V Jensen

2821E 3200N

Twin Falls, ID. 83301 ph. # 208 733 2147

In January of 1957 I purchased an 80 acre farm located at the NW 1/2 of the NW qt of 20 - 11 - 17 in Twin Falls County. From that time forward I have had an agreement with personel to use at will any surplus water running in the Salmon River Canal Company's canal located at the South side of the property mentioned.

William A. Peters
3246 N. 2700 E.
Twin Falls,

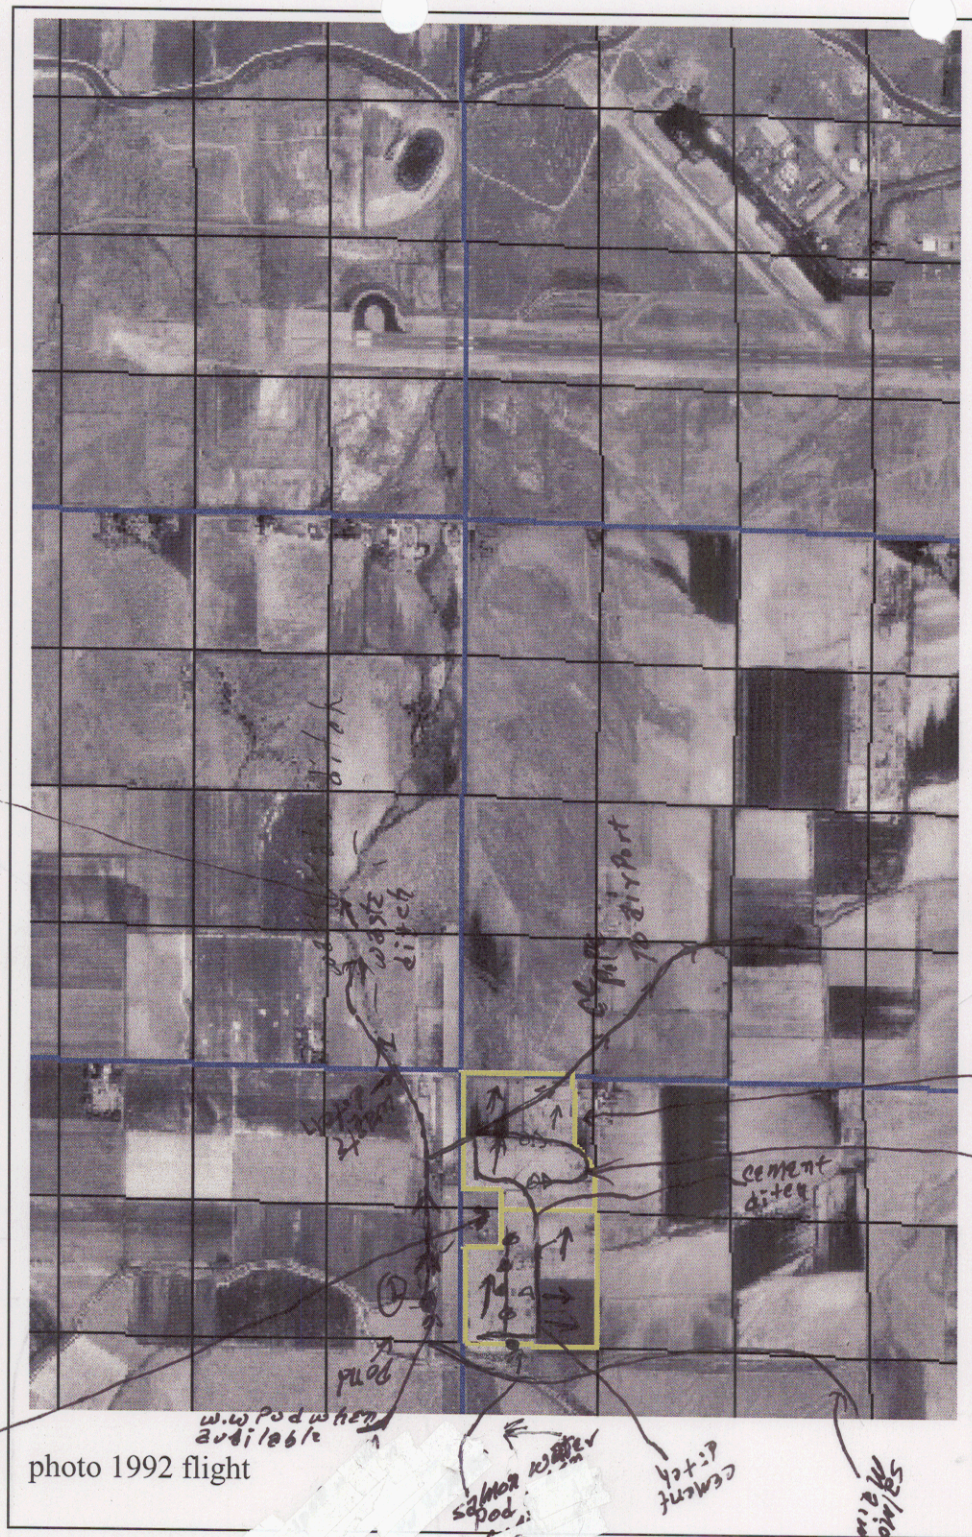

11/15/05
11/23/05

I went out and met Bill about this file and system, I also requested he provide a letter for his priority date which he assured me he get the previous owner to write a letter which he would get today and deliver to IDWR [Kelly] . While reviewing file Bill told me he also has m156 shares of Salmon Falls Water for this 70 acres , he also said the land south of his property is BLM land. This waste water is usually available only when Salmon Falls has more water than they need for live water deliveries and his waste water is transported in the pipe which delivers live water to the airport property. Bill said if it were necessary he could get his waste water out of the Salmon Falls POD # 3. The South approx. 40acres of this land is irrigated with Salmon Falls water delivered from the Main canal south end of property and the North approx. 30 acres is irrigated with Salmon Falls water and waste water when waste is available, but for the past few years this land has not been irrigated due to shortage of water, but when water is available all the land is farmed. The last few years he has rented the north end for stock grazing. All of this property is flood irrigated thru concrete ditch, pipe and open dirt ditches. When the Salmon Falls has an excess of water it flows over a spillway on pond into the waste ditch and goes on north into Twin Falls Co. system. In regards to the 3.7 acre property at the NE corner of Bills land is owned by Harold Jensen.

Need to discuss the delivery system and point of diversion location. The main issue is that the quarter/quarter just south of the place of use is BLM ground. The delivery system needs to be clear and complete.

The claim indicates that the wastewater is tributary to the Twin Falls canal Co Canal. I need additional information concerning the wastewater channel after the point of diversion.

Date: _____

Place Of Use Data

All of the place of use appears irrigated. The questions are on the parcel boundaries of the other owners. Does the claimant have any canal shares?

156 shares
