AVADNA HANSEN-SHIPLEY  
SEPT. 26, 2001  
BY: CINDY BIRD

Photo 1. Domestic home site. Looking southwest.

Photo 1 was taken while standing next to the ponds looking in a southwesterly direction at the home site for Avadna Hansen-Shipley. The home isn't used continuously but is used regularly throughout the year. The home site has several camp trailers and campers that belong to the family. Behind the tree in the foreground is an outdoors (cowboy) shower that is hooked to the gravity system.

Photo 2. Looking east at the ponds for the gravity system.

Photo 2 was taken looking east at the ponds. The spring and artesian well is commingled in the pond and flow by gravity to the home and flood irrigation of the lawn and trees. The artesian well and spring flows into the first pond.

The artesian well is not shown in the photo. It would be located to the left of the photo.

Photo 3. Artesian Well

Photo 3 was taken at 4:46 pm looking in a northerly direction at the artesian well.
