SUBJECT: AMENDING CLAIMS

phone call (.) walk-in (X)

Kathleen and Brian Olmstead came into the office and met with Kelly and myself. After going over their claims and how the system is used now, they elected to amend claims A47-11557 and A47-11558 in order to agree with the amendment they are doing on Permit # 47-08147, where all four wells are tied together into a common system. They also amended the Place of Use as it is slightly different now. They amended A47-07010A to add a second well in case the other one can't supply enough water. They will return with affidavits from relatives that own other parcels covered by A47-11567 stating they have agreements with B&T Farming to water their land with B&T's well. I can then process the ownership changes for A47-11559 and A47-11567. They also want to amend A47-11567 to drop the 40 acres in the SWSW of Section 35 since water has never actually been used there.

SUBJECT: OWNERSHIP ISSUES AND AMENDMENTS TO RIGHTS
phone ☐ walk-in ☒

Along with Jeanie R., we discussed their irrigation systems and stock rights. In the discussions we determined that the SWSW quarter of the system was not irrigated from the groundwater source. They amended the claim to delete that quarter quarter. They indicated that the actual property is owned by 3 separate individuals rather than one although the irrigation practice treats the place of use as one system. I contacted Don Shaff and he recommended that we solicit affidavits from the other parties and leave the claim in the current ownership. We discussed the stockwater - feedlot operation. The system appears to be 4 wells supplying a system of pens laying in two quarter quarters. They indicated that there is no stockwater/feedlot use in sec 35. They amended the claims to delete sec 35 uses. Where necessary, claims were also amended to reflect all 4 p/ds. Discussions indicated that there were two early developments of 500 head each for the feedlot and then a series of developments represented by a permit which is pending licensing. The total capacity including all rights is 3,000 head.

DATE: August 21, 1997 2:25 pm

SUBJECT: AMENDING CLAIMS A47-11558 & A47-11559
phone () walk-in(X)

After a field exam conducted by Dan Nelson, they came in to correct their adjudication claims to be able to file a transfer.

The wells in that area are tied together and have multiple uses on each system. The north system covered by 11559 was amended to include his grandfather's home with the stockwater. As the originally claimed system actually includes another well, the second well was added to the claim. He stated that it was his intent to transfer the stockwater portion to a feedlot laying $\frac{1}{2}$ mile south of the P/D. He stated that the stockwater use had ceased in 1991 or 1992.

A47-11558 was amended to tie all four wells together and to correct the place of use for the south feedlot. He indicated that there was never a feedlot in the NWNE quarter of sec 2. Reference to domestic uses was dropped as he indicated that the previously mentioned domestic uses were for homes owned by relatives rather than by Triple "O" farms. I stated that the individuals could still claim their domestic uses independently. He stated that he intends on transferring the stockwater portion of this right also.

I gave them change of ownership forms to update the ownerships on the claims.

Nature of Contact office visit

Substance of Communication she brought in some Evidence of Priority on A47-11558 and A47-11567. She did address updates on all these claims. I also explained why she was only requested to prove priority on certain claims, and not others (domestics are exempt and licenses already have priority dates in our records.)

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor
