## Mitchell (Sauer) Wells on Joe Hartwell's Property

1930 - Sauve Decree decrees rights 31-00160 to Alexander Mitchell and 31-00161 to Mary Mitchell, both rights have a source of Spring Lake and a priority date of December 8, 1913.

1936 - Documentation supports that Spring Lake had dried up and the east well was drilled in T07N, R34E, S05 NESE by Tom Mitchell to replace the Spring Lake water.

1939 - Documentation supports that the west well was drilled in T07N, R34E, S05 NESE by Tom Mitchell.

1948 - Warranty deed from Sandy and Dorothy Mitchell to Joe Hartwell reserves the right for Thomas Mitchell to drill a new well or wells on property Mitchells sell to Hartwell (includes T07N, R34E, S05, NESE.) The existing well and the new well or wells total diversion rate is limited to 600 inches (12.00 cfs).

1956 - Documentation supports the east well in Section 5 was enlarged. Claims 31-04011B and 31-04011C are for the enlarged use.

1974 - Application for Permit 31-07131 and statutory claim 31-04011 filed. Joe Hartwell protested the application for permit. Bruce Mitchell agreed not to increase the amount of water currently developed and abide by the 1948 warranty deed. Joe Hartwell and Bruce Mitchell signed a stipulation that was also a withdrawal of the protest. See memo from Ron Carlson in file 31-07131 dated December 17, 1974.

1975 - Statutory claim 31-04012 filed by Earl Hunter. Bruce Mitchell filed an exception to the claimed priority date of 1934 stating it should be 1939 or 1940.

1977 - The field exam for 31-07131 was conducted on September 2, 1977. The "capacity" of the east well was measured at 7.42 cfs.

1979 - Application for Permit 31-07320 filed by Sauer Enterprises with the Point of Diversion a well in Section 18.

1985 - Application for Permit 31-07320 amended by Sauer Enterprises to include the wells in Section 5. Amended application states an easement authorizes access to wells in Section 5. A copy of the easement is not furnished with the application, and it is assumed the document that authorizes the easement is the 1948 warranty deed reservation. Joe Hartwell files a protest to this amended application stating that an increase in flow from the wells in Section 5 will "create a trespass condition and disregard the terms under which I purchased the land on which the wells are located." Joe Hartwell later withdrew his protest.

1990 - A re-examination for 31-07320 is conducted to include the flows of both the east well and west well in Section 5. This field exam found the east well producing 5.71 cfs and the west well producing 7.38 cfs. This is a total of 13.09 cfs which is 1.09 cfs greater than the 12.00 cfs described in the 1948 warranty deed.

2000 - A check with Jefferson County Assessor shows Joe Hartwell as the owner of record for T07N, R34E, S05, NESE.
