## COMMUNICATION DOCUMENTATION

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

**SUBJECT: Transfer of 31-02327, 31-02371 and 31-07204**

phone call (x) walk-in (.)

Lynn wants to sell the S1/2NE1/4 S26 T06N R35E to Kieth Barzee but at a reduced rate per acre from the original licensed rate under 31-02327. I called him this morning to explain that I couldn't prepare the transfer form to accomplish what he wants based on how the rights are presently on record in the WR database. I indicated he would have to file a transfer application to modify the licenses. Then a second application for transfer could be filed to convey a portion of 31-02327 to K. Barzee. Lynn is already water short for the land he presently irrigates and feels 31-07204 was licensed incorrectly for an amount considerably less than the system has always produced. He decided to talk with his attorney, Kent Foster, about getting the license amended. He doesn't want to initiate a transfer until he has talked with Kent. I indicated I would hold further action until I receive word from him on how he wants to proceed.
