Subject: Perkins reservoir

Cindy, license 29-7071, see insert, covers storage of water in the Perkins reservoir. Lewis Rounds explained to me that the original dam, which now extends across reservoir at about the middle of it, washed out prior to 1971. The new dam with a large pool was built in 1971 and filed on under permit 29-7071. Note that the source of water is springs and unnamed stream (snowmelt). I think we should renumber 29-10319 to 29-7071 and recommend the claim as licensed. Put a note on the file to that effect and I will bring the file back here to renumber it.

29-7071.RTF
